1. Commitment

We will not tolerate, profit from, contribute to or facilitate serious human-rights abuses, direct or indirect support to non-state armed groups or public or private security forces acting illegally, bribery, fraudulent misrepresentation of origin, or money laundering.

2. Management systems

A named compliance officer, a KYC procedure for every counterparty, and chain-of-custody records kept for at least five years.

3. Risk assessment

Every source is mapped and checked for red flags: conflict-affected location, unlicensed sellers, unexplained volumes or cash-only terms.

4. Risk mitigation

Red-flag lots are suspended until resolved; supplier relationships are ended where risks cannot be mitigated.

5. Audit and reporting

Independent third-party audit of our due diligence and an annual public report on our supply chain.
